Presented to

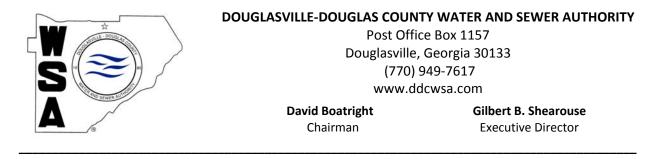

Douglasville-Douglas County Water and Sewer Authority Georgia

For its Comprehensive Annual Financial Report for the Fiscal Year Ended

June 30, 2015

Suy R.

Executive Director/CEO

November 8, 2016

Board of Directors of the Douglasville-Douglas County Water and Sewer Authority Customers and Citizens of Douglas County, Georgia

We are pleased to submit the Comprehensive Annual Financial Report of the Douglasville – Douglas County Water and Sewer Authority ("Authority") for the fiscal years ended June 30, 2016 and 2015. This submission is in compliance with the Act that created the Authority. The basic financial statements for the fiscal years ended June 30, 2016 and 2015 have been audited by our independent auditors, Nichols, Cauley & Associates, LLC, and Crace Galvis McGrath, LLC. The annual audit is planned and performed to obtain reasonable assurances that the basic financial statements of the Authority are free of any material misstatements and are prepared in accordance with generally accepted standards within the United States. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the Authority's management. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the Authority. All disclosures necessary to enable the reader to gain an understanding of the Authority's financial activities have been included. For further understanding, readers should refer to the Management's Discussion and Analysis.

PROFILE OF THE AUTHORITY

The Douglasville-Douglas County Water and Sewer Authority was created under an Act of the Georgia General Assembly (Georgia Laws 1985, Act No. 40), and commenced operations on December 27, 1985 by the transfer of the City of Douglasville's water and sanitary sewer system and the County's water and sanitary sewer system. The Authority has the power to construct, erect, acquire, own, repair, remodel, maintain, add to, extend, improve, equip, operate and manage a water and sanitary sewer system for certain purposes.

The Authority is an independent public body corporation with seven board members in the governing body. Five of the board members are appointed alternately by the City of Douglasville Council, and the County Board of Commissioners. The Mayor of the City of Douglasville and Chairman of the Board of Commissioners of the County serve as ex-officio voting members of the Authority. Appointed members serve for five-year staggered terms.

The Authority's Board appoints an Executive Director who is responsible for the daily management of the Authority. The Board adopts a balanced budget annually and establishes billing rates for the operations of the Authority. The Executive Director has the responsibility of administering operations in accordance with the Authority Bylaws and directives of the Authority Board of Directors.

The Authority exclusively provides water, sanitary sewer, and stormwater services to Douglas County, with the exception of the cities of Villa Rica and Austell, Georgia. The Authority supports various types of customers, including residential, commercial, industrial, multi-family, mobile home parks and governmental accounts.

The Authority operates and maintains water, sanitary sewer, and stormwater systems consisting of water reservoirs, water and wastewater treatment plants, water distribution and sewage collection lines, stormwater retention ponds, conveyance pipes and culvert systems, and the use of meters to bill consumption. As of June 30, 2016, the net property, plant and equipment value of the combined system was \$386,557,751.

The water system's raw water, primarily from the Dog River Reservoir (256-acres) and Bear Creek Reservoir, is pumped to the Authority's Bear Creek Water Treatment Plant and distributed throughout the County. The system is served by 931 miles of

"Award Winning Service For Our Local Community"

distribution lines in various diameter sizes throughout the County. The last plant expansion of the water treatment plant brought capacity to 23.9 MGD. The construction of a redundant raw water line was completed in September 2014 allowing the water treatment plant to produce at capacity should the need arise.

The sanitary sewer facilities collect sewage through 461 miles of sanitary sewer collection lines and force mains which lead to two major wastewater treatment plants and two smaller plants. Treated effluent from one of the two large facilities, the Sweetwater Creek WWTP, receives additional treatment at a 1.75 MGD side-stream facility before being provided as cooling tower make-up water for a large data processing center located in the County.

Stormwater services started in January 2003 when the Authority acquired the City of Douglasville's stormwater system. In December 2003, the Authority entered into a 30-year Intergovernmental Agreement with Douglas County whereby the Authority acquired the County stormwater system and the County agreed to transfer the assets to the Authority on July 1, 2004. As of June 30, 2016, the combined Authority stormwater system consisted of 120 miles of conveyance pipe and culvert systems, 10,956 catch basins and junction boxes and other appurtenances.

ECONOMIC FACTORS AND OUTLOOK

Douglas County is part of the Atlanta metropolitan area and is located west of the Fulton County line, less than 25 miles west of downtown Atlanta. The population of Douglas County as of the U.S. 2010 Census was 132,624 and now is estimated to be 140,733.

Interstate Highway I-20, U.S. Highway 78, U.S. Highway 278, and four state routes serve the County at the present time. There are approximately 1,012 miles of roads, with all but approximately 60 miles of those paved in the County. Atlanta's perimeter highway (Interstate 285) provides easy access to all areas of Atlanta, including I-75 and I-85. Douglas County is served by 51 interstate/intrastate trucking carriers, and by 11 carriers that are intrastate only. A major east-west bound railroad line for Norfolk Southern Railways crosses through the County with trains bringing finished goods and raw materials in and out of the County.

The Authority's water and sanitary sewer systems serve approximately 95% of the residential population of the County. The system serves schools, day-care facilities, one hospital, churches, and state and local governmental units. Several suburban shopping centers, including a 1.4 million square-foot regional mall, numerous motels, restaurants and apartment complexes are also served by the system. The 10 largest customers for the 12 months ending June 30, 2016 are listed in Table 15 of the statistical section of this report, along with other pertinent statistical information.

During this past fiscal year, Douglas County and the Atlanta metropolitan area experienced some new construction and an improvement in unemployment. The Authority expects gradual improvement in both construction and population over the next five years. Current projected operating revenues should be sufficient to cover operational costs, debt service and capital needs. The Authority maintains a reserve fund for emergency use in case of disasters or shortfalls in funding operations, debt service or capital projects.

The Authority experienced a decline in water consumption after 2007 of approximately 18% due to a decrease in wholesale water sales and conservation measures practiced after the drought. The past year experienced a slight increase in consumption.

MAJOR INITIATIVES AND OTHER EVENTS

A meter replacement project, started in 2011, to replace all residential meters and convert our system to a fixed base radio read system continues with 24,000 installations at June 30, 2016. The project will take six to eight years to complete at an estimated cost of \$3,000,000 a year.

A redundant raw water main from the reservoir to the water treatment plant was completed in September 2014 at a cost of \$9.7 million.

A \$1.8 million stormwater project to replace a culvert under a two-lane road on Chapel Hill Road with a four-lane open bottom culvert was completed in August 2015.

A \$1.1 million project to rehabilitate a large potable water storage tank was completed in May 2016.

LONG-TERM FINANCIAL PLANNING

In order to facilitate long-term planning, the Authority maintains a five-year cash flow model of its finances that includes projections of water and sewer capacity utilization, system growth and related availability of operating revenue, anticipated operating expenses, capital expenses, debt service requirements and cash flows. A Capital Improvements Program is included as part of this planning document which is reviewed and updated annually, detailing the capital projects necessary to meet the needs of the system's expansion and rehabilitation. The Authority uses this data to facilitate projections of necessary rate increases, additional capacity requirements, debt needs and proper debt service coverage.

INTERNAL CONTROL AND BUDGET POLICIES

The Authority's management is responsible for establishing and maintaining a system of internal accounting controls. The objectives of internal controls are to provide management with reasonable, but not absolute, assurances that the assets of the Authority are protected from loss, theft, or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States. The concept of reasonable assurance recognizes that the cost of the control should not exceed the benefit likely to be derived, and the evaluation of costs and benefits requires estimates and judgments by management. Management reviews internal controls on a continuing basis.

The Authority operates under the auspices of a Board-approved annual budget. The budget is prepared on a zero-base concept which sets out allocations of anticipated operating revenues and requires justification of all expenses. Since the Authority has no taxing power and operates solely on its own revenues, there are no appropriations. Operational and maintenance costs are funded from customer fees and charges. The Authority plans, budgets, and manages to assure that current costs are funded through current revenues. The Bylaws of the Authority require an adoption of the Operating and Capital Budgets no later than 15 days prior to the start of its Fiscal Year. The budget remains in effect the entire year and is not revised, as is the case in many governmental entities.

The Authority uses a one-year operating budget process with an additional five-year cash projection included to address a longer term planning and management perspective. An analysis is presented with the budget and rate recommendation to ensure that utility revenues are sufficient to recover total cash needs for a five-year projection period. Total cash needs include annual expenditures to operate the system, capital-related costs of principal and interest payments on debt, contributions to specific reserves, and capital replacements and improvements that are not debt-financed. Services are provided to customers under a rate structure designed to produce revenue sufficient for operating and maintenance costs, capital outlay, debt service, reserves and debt service coverage. While the Authority prepares long-range rate projections, these projections are reviewed annually through the budgetary and rate-making process of the Authority. Rates are generally changed in December after reviewing previous year's actual figures and estimating any changes that may have occurred since the adoption of the budget. The Director has the authority to increase rates at any time up to an annual increase of 5% plus the cost of living, without further Board of Directors action.

DEBT MANAGEMENT POLICY

The Authority manages debt in accordance with all applicable law, bond resolutions and adopted debt management policies. In the bond resolutions, the Authority covenants and agrees that it will, at all times, prescribe, maintain, and thereafter collect rates and charges for the services and facilities furnished by the Authority, together with other income, that will yield annual net earnings in the fiscal year equal to at least one hundred ten percent (110%) of the sum of the annual debt service payments for all bonds outstanding. "Net earnings" is defined by the bond resolution to mean the net operating income of the system, adding back depreciation, and including interest income, tap fees, development fees and other non-operating revenue. The bond resolutions obligate the Authority to review rates and to revise such rates and charges that are at all times sufficient to provide for the payment of the bonds; to maintain the debt service funds and any other related funding instruments related to the debt of the system; and to provide for the payment of administrative and operational expenses of the system preserving the system in good repair and working order.

AWARDS AND ACKNOWLEDGEMENTS

The Douglasville-Douglas County Water and Sewer Authority is held to the highest standards by our community, and has been successful in gaining recognition from industry peers, by the numerous awards received in the past. Awards received during the past two calendar years included:

2015

- Georgia Association of Water Professionals (GAWP) Plant of the Year in its size category awarded to the Bear Creek Water Treatment Plant.
- Georgia Association of Water Professionals (GAWP) Bronze Award for WSA's Volunteer Service to GAWP
- Government Finance Officers Association Award for Excellence in Financial Reporting

2014

- Bear Creek Water Treatment Plant GAWP's Safety Award
- South Central Wastewater Treatment Plant Laboratory Best in the State in its size category
- Georgia Association of Floodplain Management Award for Excellence in Floodplain Management
- Government Finance Officers Association Award for Excellence in Financial Reporting
- Georgia Association of Water Professionals (GAWP) Bronze Award for WSA's Volunteer Service to GAWP

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Douglasville-Douglas County Water and Sewer Authority for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2015. This is the thirteenth year the Authority has received this prestigious award. In order to be awarded a Certificate of Achievement, the Authority must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that the current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of the CAFR was made possible by the dedicated services of the entire staff of the Finance and Administration Departments. Each member of these departments has my sincere appreciation for the contributions made in the preparation of this report. In closing, the staff would also like to express gratitude for the Chairman and the entire Board of Directors, as well as the Executive Director for their interest and support in planning and conducting the financial operation of the Authority in such a responsible and progressive manner.

Respectfully submitted,

Thomas W. alger

Thomas W. Alger, CPA, CGMA Chief Financial Officer

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors Douglasville-Douglas County Water and Sewer Authority Douglasville, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the Douglasville-Douglas County Water and Sewer Authority (the "Authority"), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Douglasville-Douglas County Water and Sewer Authority, as of June 30, 2016, and the changes in financial position and the cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Prior Period Financial Statements

The financial statements of Douglasville-Douglas County Water and Sewer Authority as of June 30, 2015 were audited by other auditors whose report dated November 18, 2015, expressed an unmodified opinion on those statements.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedule of Changes in Net Pension Liability and Related Ratios, Schedule of Pension Contributions, Executive Director's Additional Pension Plan Schedule of Funding Progress and OPEB Plan Schedule of Funding Progress on pages 14 through 21 and 46 through 49, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Authority's basic financial statements. The introductory section, additional schedules of individual accounts, and the statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The additional schedules of individual accounts are the responsibility of management and are derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the additional schedules of individual accounts are fairly stated, in all material respects, in relation to the basic financial statements as a whole. The 2015 information included in the additional schedules of individual accounts was subjected to the auditing procedures applied in the 2015 audit of the basic financial statements by other auditors, whose report on such information stated that it was fairly stated in all material respects in relation to the 2015 basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 8, 2016, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting are porting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION

AND ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section presents management's analysis and overview of Douglasville-Douglas County Water and Sewer Authority's financial performance during the fiscal years that ended on June 30, 2016 and 2015. Please read it in conjunction with the financial statements which follow this section.

FINANCIAL HIGHLIGHTS

- The overall financial condition of the Authority remained strong during the fiscal year ended June 30, 2016. Total assets and deferred outflows at June 30, 2016 were \$429.7 million and exceeded liabilities and deferred inflows in the amount of \$271.3 million (net position). Total net position increased by \$2.9 million in fiscal year 2016. Total net position decreased by \$0.7 million in 2015 due to a decrease of \$2.0 million for a prior period adjustment related to new pension reporting standards and an increase of \$1.3 million in the fiscal year 2015 operations.
- During the fiscal year 2016, the Authority's "operating revenues" increased to \$43.8 million up from \$41.7 million in 2015 or 5.0%, while "operating expenses" increased to \$38.3 million from \$37.8 million in 2015 or 1.3%. The increase in revenue is noted below. Increases in operating expenses occurred in employment cost (\$0.5 million), repairs & maintenance (\$0.1 million), supplies & materials (\$0.03 million), water and purchased services (\$0.02 million), depreciation (\$0.04 million) and administration (\$0.1 million). Utilities decreased by \$0.3 million, primarily in electricity in a year with the lowered energy costs worldwide.
- Water revenue increased \$1.3 million and sewer revenue increased \$0.8 million in the fiscal year ended June 30, 2016 over that of the previous year. Water rates and sewer increased 3% in December 2015. Water demand was strong in 2015, particularly later in the year, as natural rains fell behind normal seasonal volume and demand for water from the Authority increased. In fiscal year ended June 30, 2015, water and sewer rates also increased 3% in December 2014. The Authority increases rates to keep pace with inflation, ensure recovery of all its operating costs, and to cover annual debt service payments.
- The Authority's capital assets increased \$8.8 million and \$7.2 million in fiscal years 2016 and 2015 of which \$0.3 million and \$1.4 million were non-cash developer infrastructure improvements.

OVERVIEW OF THE FINANCIAL STATEMENTS

This Comprehensive Annual Financial Report is presented in three sections; Introductory, Financial, and Statistical. The Management's Discussion and Analysis (MD&A) serves as an introduction to the financial section. The financial section consists of the Independent Auditors' Report, Management's Discussion and Analysis, and the Authority's basic financial statements, which are presented comparatively for the fiscal years ending June 30, 2016 and 2015. The basic financial statements consist of the following:

- Statements of Net Position
- Statements of Revenues, Expenses and Changes in Net Position
- Statements of Cash Flows
- Notes to Financial Statements
- Required Supplementary Information

The Statements of Net Position include all of the Authority's assets, deferred outflows, liabilities, and deferred inflows, and provides information about the nature and amounts of investments in resources (assets), and the obligations to Authority creditors (liabilities). They also provide the basis for evaluating the capital structure, liquidity and financial flexibility of the Authority. All of the current year revenues and expenses are accounted for in the Statements of Revenues, Expenses, and Changes in Net Position. These statements measure the success of the Authority's operations over the past year and can be used to determine whether the Authority has successfully recovered all its costs through its user fees and other charges, profitability, and credit worthiness. The final required financial statement is the Statements of Cash Flows. The primary purpose of these statements is to provide information about the Authority's cash receipts and cash payments during the reporting period. The statements report cash receipts, cash payments, and net changes in cash resulting from operations, investing, and financing activities and provides answers to such questions as where did cash come from, what was cash used for, and what was the change in cash balance during the reporting period. The Financial Statements of the Authority report information about the Authority using accounting methods similar to those used by private sector companies. The Notes to Financial Statements provide necessary disclosures that are essential to a full understanding of the data in the aforementioned financial statements.

FINANCIAL ANALYSIS OF THE AUTHORITY

In fiscal year 2016, the Authority maintained its sound financial condition, even with slow regional economic growth within the service area. This was demonstrated by the Authority's continued strong cash and investment portfolio as outlined in the financial statements and schedules in this report. While exercising prudent fiscal discipline, the Authority continues to ensure it is able to provide safe water to customers as well as be fiscally and environmentally responsible.

STATEMENTS OF NET POSITION

A summary of the Authority's Statements of Net Position (Balance Sheets) is presented in Table A-1.

TABLE A-1	
Condensed Statements of Net Post	ition

Comparison 2016-2015

Net position at June 30, 2016 was \$271.3 million, an increase of \$2.9 million. The increase was due to a combination of a water and sewer rate increase, strong demand for water in an area facing drought conditions, and the Authority's efforts at controlling costs while still providing safe and efficient services. Current and other assets increased \$5.9 million, which \$6.2 million was in cash & investments, \$0.3 million in accounts receivables; while net pension assets decreased \$0.6 million. The net pension asset in 2015 has become a net pension liability in 2016. The increase in liability is a result of a decrease in investment income, from a long term actuarial assumed rate of return of 7.75% to actual results of only 1.1% for the period. Capital assets decreased \$9.4 million due to adding \$1.8 million in deferred outflows of pensions under new pension reporting requirements and lowered investment returns, and an increase of \$1.8 million in bond defeasance costs. Long-term debt decreased \$4.0 million, a decrease in accounts payable (\$0.1 million), a decrease in pension liability (\$0.9 million), and an increase in customer deposits (\$0.2 million). Net position for investment in capital assets decreased \$4.4 million as a result of a net decrease in capital assets of \$9.4 million, debt reduction of \$3.2 million, \$1.8 increase in deferred outflows. Net position - unrestricted (available for day-to-day operations) increased \$4.0 million as a result of the change in net position - restricted, as well as financial operations and activities for the year.

Comparison 2015-2014

Net position at June 30, 2015 was \$268.4 million, a decrease of \$0.7 million. The decrease was due to a prior period decrease adjustment of \$2.0 million for new pension plan reporting requirements by GASB Statement 68, and the current year's increase of \$1.3 million in net position. Current and other assets increased \$1.5 million of which \$1.6 million was in cash & investments, \$0.4 million in accounts receivables; while net pension assets decreased \$0.7 million. The net pension asset decrease was due to new pension reporting requirements. Capital assets decreased \$8.6 million due to depreciation expense exceeding new assets acquired during the year. Deferred outflows increased \$0.5 million due to adding \$0.9 million in deferred outflows of pensions under new pension reporting requirements, and a decrease of \$0.4 million in bond defeasance costs. Long-term debt decreased \$6.1 million reflecting payments of principal. Other liabilities decreased \$1.2 million due to an increase in current bond obligations (\$0.2 million), a decrease in accounts payable (\$1.7 million), and an increase in customer deposits (\$0.3 million). Net position for investment in capital assets decreased \$6.0 million as a result of a net decrease in capital assets of \$8.6 million, debt reduction of \$5.9 million, \$0.5 decrease in deferred outflows and reduction in bond proceeds of \$2.8 million. Net position - unrestricted (available for day-to-day operations) increased \$1.1 million due to a \$2.0 million reduction for a prior period adjustment for pensions and as a result of the change in net position investments in capital assets and net position - restricted.

TADLEA

While the Statements of Net Position shows the increase in net position of \$2.9 million, the Statements of Revenues, Expenses, and Changes in Net Position, provides answers as to the nature and source of these changes. A closer examination of the individual categories affecting the source of changes in net position is discussed below.

Review of Operations:

Comparison 2016-2015

Operating revenues increased by \$2.1 million or 5.0%. Water revenue increased 5% (\$1.3 million) and sewer revenue increased 6% (\$0.8 million) with a 3% rate increase in December and strong demand for water. Volume of sales indicate customers were using slightly more water and sewer than the previous years. Bad debt expense only increased by \$0.1 million to \$0.4 million due to continued collection efforts, which saw cutoff charges up \$0.2 million on stricter enforcement of cutoffs due to non-timely payment. There were no significant other increases or decreases in other revenues.

Operating expenses increased \$0.5 million from the previous year. Employment cost increased \$0.6 million or 5.8% mainly due to slight increases in salaries, retirement plan cost, and group medical cost, but no increases in personnel levels. Increases in repairs and maintenance (\$0.1 million) and administration (\$0.1 million) were due to anticipated and budgeted costs. Purchased services, supplies and materials, and depreciation were flat. Utilities decreased over the previous year due to lowered energy costs resulting in lowered electrical power costs of \$.3 million or 9.1%.

Comparison 2015-2014

Operating revenues increased by \$2.0 million or 5.2%. Water revenue increased 4.2% (\$0.9 million) and sewer revenue increased 6.1% (\$0.7 million) with a 3% rate increase in December and with a full year of tier adjustments from last December. Volume of sales indicate customers were using slightly more water and sewer than the previous years. Bad debt expense remained the same at \$0.3 million due to continued collection efforts. There were no significant other increases or decreases in other revenues.

Operating expenses decreased \$0.8 million from the previous year. Employment cost decreased \$1.1 million or 9.6% mainly due to decreases in retirement plan cost (\$0.6 million) and group medical cost (\$0.4). Increases in repairs and maintenance (\$0.2 million or 9.5%) and supplies & materials (\$0.1 million) were due to anticipated and budgeted costs. Purchased services decreased \$0.3 million due to no external water being purchased during the year. Utilities and administration remained the same as the previous year.

Total Non-Operating Revenues and Expenses:

Comparison 2016-2015

Non-operating interest income increased by \$0.1 on larger deposits, although rates paid on deposits remain at historical lows. Total non-operating expenses decreased \$0.9 million to \$6.1 million. Interest expense decreased \$0.7 million due to reduced bond principal outstanding and bond refunding, and other expenses increased by \$0.7 million, including bond refunding expenses. Disposition of capital assets decreased \$0.9 million in 2016 compared to the 2015 disposition of meters not fully depreciated in the AMR/AMI meter replacement program.

Comparison 2015-2014

Non-operating interest income remained at the same level. Total non-operating expenses increased \$0.3 million to \$7.0 million. Interest expense decreased \$0.5 million due to reduced bonds outstanding, and other expenses decreased \$0.1 million. Disposition of capital assets increased \$0.9 million from disposition of meters not fully depreciated in the meter replacement program.

Capital Contributions:

Comparison 2016-2015

Capital Contributions were down \$1.0 million to \$3.3 million (down 23.3%). The tap fees were up \$0.4 million (23.5%) to \$2.1 million, developer lines were down \$1.1 million (78.6%) to \$0.3 million and grants were down \$0.3 million to \$0.9 million. The increase in tap fees is reflective of the current housing increase over the past fiscal year, but consists mostly of taps sold on existing developed lots, not new subdivision work from developers. The developer contributions consist of non-cash contributions of commercial or residential developments, of which there is little development as the market absorbs lot inventory developed in prior years. The grant contributions were FEMA grants for the Chapel Hill Road culvert replacement project, flood repairs, and purchase of flood homes. Flood homes purchased by grants are demolished and restricted from future building on the sites. The land values are recorded as assets while the balance of the cost are expensed.

Comparison 2015-2014

Capital Contributions were up \$1.9 million to \$4.3 million. The tap fees were up \$0.2 million to \$1.7 million, developer lines were up \$0.8 million to \$1.4 million and grants were up \$0.9 million to \$1.2 million. The increase in tap fees is reflective of the current housing increase over the past fiscal year. The developer contributions consist of non-cash contributions of commercial or residential developments. The grant contributions were FEMA grants for the Chapel Hill Road culvert replacement project and purchase of flood homes. Flood homes purchased by grants are demolished and restricted from future building on the sites. The land values are recorded as assets while the balance of the cost are expensed.

CAPITAL ASSETS AND DEBT ADMINISTRATION

The tables below provides a summary of the Authority's changes in capital asset acquisitions financed by Authority expenditures, developer lines, and city and county contributions. At the end of 2016, the Authority had invested \$609.2 million in a broad range of infrastructure including water plants, wastewater plants, wastewater facilities, water & sewer lines, dam construction, reservoir, maintenance and administration facilities, and vehicles and equipment. More detailed information about the Authority's capital assets is presented in the Notes to the Financial Statements Note 3.

DEBT

At June 30, 2016 year-end, the Authority had \$145.1 million in debt instruments down from \$145.9 million in fiscal year 2015. This decrease was due to scheduled payments on debt combined with a bond refunding of the 2007 bond series with a 2015 bond series. The Authority was in compliance with all bond and loan covenants during the fiscal years 2016 and 2015. More detailed information about the Authority's debt liabilities is presented in Note 4 of the Notes to the Financial Statements.

In October 2015, the Authority issued \$73.4 million in 2015 Bonds at 3.1% interest rate for a defeasance of \$68.6 million of 2007 Series Bonds. Proceeds were placed in a trust for payment of the 2007 Bonds at the callable date of June 1, 2017.

In December 2013, the Authority issued \$53.2 million in 2013 Bonds at 2.8% interest rate for a defeasance of \$48.4 million of 2005 Series Bonds. Proceeds were placed in a trust for payment of the 2005 Bonds at the callable date of December 2015.

BOND RATINGS

With the 2009 Bond issue the Authority received a standalone rating of **Aa2** by Moody's, and an affirmation of its **AA**rating from Standard & Poor's. In August 2014 Moody's downgraded the Authority's rating to **Aa3**.

LIMITATIONS ON DEBT

Bond Covenants allow for the issuance of additional debt, on parity, as to lien on the net revenues of the System provided certain net earnings ratio(s) conditions are met. The major criteria is that all estimated future net earnings of the system must be at least 1.20 times the highest combined debt service requirement. The Authority's current coverage ratio is 2.3.

Debt Coverage Ratio:

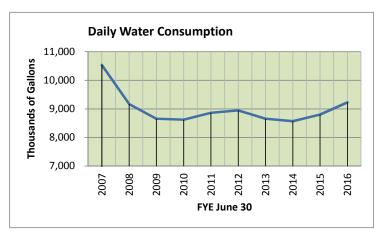

During fiscal year 2016, the Authority's debt coverage ratio, based on maximum annual debt service, improved from 2.1 to 2.4. The current debt service structure remains rather level reaching maximum annual debt service in 2025 of \$11.4 million and declining after 2030. Note this calculation is based on the actual 2015 Series B bond maturities excluding the mandatory redemption date at June 1, 2030.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

Conservation efforts brought on by the 2007 drought and adoption of a three tier rate structure resulted in an 18% decrease in daily water consumption after the peak year ended June 30, 2007. The last year experienced a slight increase in consumption. Water consumption is not anticipated to change significantly in the next five years.

The fiscal year 2017 budget, five year cash flow projections and capital improvement program have been prepared based on projected economic and population growth for the Authority's service area which is expected to remain stable with slight growth anticipated in the next five years. Other factors affecting next year's and future budgets are listed below.

- The 2017 budget was prepared with a 3% increase in water and sewer rates, however management will review conditions during the year to determine if operating expenses, coverage ratios, debt service, and future capital improvement needs are being met.
- The Authority's Capital Improvement Program is funded through issuance of new debt, capital contributions from tap fees and from developers, and operating revenue in excess of operating expenses and debt service expenses. With the construction and tap fees anticipated to continue to be slow and a reluctance to issue new debt, the Authority will be relying more heavily on operating revenues to fund capital improvements on a pay-as-you-go basis.

CONTACTING THE AUTHORITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, customers, and creditors with a general overview of the Authority's finances and to demonstrate the Authority's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Douglasville-Douglas County Water and Sewer Authority's Chief Financial Officer, P.O. Box 1157, Douglasville, Georgia 30133.

NOTES TO

FINANCIAL STATEMENTS

Douglasville-Douglas County Water and Sewer Authority Notes To Financial Statements

June 30, 2016 and 2015

1. Summary of Significant Accounting Policies

Formation and Governance of the Authority

The Douglasville-Douglas County Water and Sewer Authority (the "Authority") was created by an act of the State of Georgia Legislature on March 7, 1985 for the purpose of providing water and sewerage services to the citizens of Douglas County. On December 27, 1985, the Authority accepted the transfer of the assets of water and sewerage systems of the City of Douglasville (the "City") and Douglas County, Georgia (the "County"). The net book value of the assets transferred was recorded as a capital contribution to the Authority.

The Authority entered into 30-year Intergovernmental agreements with the City and the County to manage the stormwater systems. On January 1, 2003, the City transferred their stormwater system to the Authority in exchange for the waiver of future stormwater service fees. On July 1, 2004, the County transferred their stormwater system to the Authority in exchange for the waiver of future stormwater service fees. As stated in each Agreement, unearned revenue for the City and County was recorded at an amount equal to the present value of the future estimated stormwater service fees for a period of 30 years, and no operating liabilities were assumed or recorded at date of transfer. The estimated fair value of the assets transferred less the unearned revenue was recorded as a capital contribution.

The Authority's governing body is composed of seven members. Two of the board members are the Mayor of Douglasville and the Chairman of the Board of Commissioners of Douglas County. The remaining five members are selected on a rotating basis by the City and County.

No participating government has access to resources or surpluses, nor are they liable for any of the Authority's debts or deficits. The Authority has the ability to finance its capital projects through user charges or the sale of revenue bonds. The Authority is not a component unit of any participating government unit. There are no component units within the Authority's financial statement.

The following is a summary of the Authority's significant accounting policies:

A. Basis of Accounting

The Authority is accounted for as an enterprise fund (proprietary fund type). A fund is an accounting entity with a self-balancing set of accounts established to record the financial position and changes in financial position of a specific governmental activity. The activities of enterprise funds closely resemble those of private-sector businesses in which the purpose is to conserve and add to basic resources while meeting the operating expenses from current revenues. Enterprise funds account for operations that provide services on a continuous basis and are substantially financed by revenues derived from user charges.

The Authority utilizes the accrual basis of accounting. Revenues are recognized when earned, and expenses are recognized as they are incurred. The Authority financial statements apply all effective pronouncements of the Governmental Accounting Standards Board (GASB), and when not in conflict with , or contradictory to GASB, pronouncements of the Financial Accounting Standards Board (FASB).

B. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, demand deposits, funds retained at banks and other highly liquid investments with a maturity of three months or less.

C. Investments

Investments are stated at fair value or amortized cost plus accrued interest and consist of federally insured or fully collateralized interest-bearing deposits.

Douglasville-Douglas County Water and Sewer Authority Notes To Financial Statements

1. Summary of Significant Accounting Policies (continued)

D. Capital Assets

Capital assets are defined by the Authority as individual assets with a life expectancy of more than one year and a minimum cost of \$5,000. The capital assets transferred to the Authority were recorded as capital contributions from the City and the County at estimated historical cost, less accumulated depreciation at the date of transfer. The Authority also capitalizes a portion of interest expense as part of the historical cost of constructing expansions to the system. The capital assets of the Authority are depreciated using the straight-line method over estimated useful lives as follows:

Machinery and equipment	5 - 10 years
Buildings	25 - 40 years
Improvements other than buildings	30 - 50 years

E. Inventories

Inventory of supplies and materials is valued at the lower of cost (first-in, first-out) or market.

F. Bond Premiums, Bond Discounts and Bond Issurance Costs

Bond premiums, bond discounts, and bond insurance costs are being amortized on the effective interest method over the term of the related obligation. Bond premiums and discounts are presented as additions and reductions, respectively, to revenue bonds on the accompanying financial statements. Bond issuance costs consist of bond insurance purchased as part of a bond issue. Other related bond issuance costs are expensed in the year the bond is issued.

G. Deferred Outflows/ Inflows of Resources

Deferred outflows of resources represent a consumption of net position that applies to future periods and will not be recognized as an outflow of resources (expense) until then. Currently, deferred outflows consist of pension contributions and charges on bond refundings. The pension contributions will be expensed in the subsequent year while the bond refunding charges are amortized over the shorter of the remaining life of the old debt or the new debt. Deferred inflows represent an acquisition of net position that applies to future periods and will not be recognized as an inflow (revenue) until then. Deferred inflows consist of pension plan resources required in future periods.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about fiduciary net position of the Douglasville-Douglas County Water and Sewer Authority Employees Retirement Plan (the "Plan") and additions to /deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by Georgia Municipal Employees Benefit System. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair market value.

H. Net Position

The Authority classifies net position as follows:

Net Investment in capital assets – This component of net position consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any debt, net of unspent proceeds, related to those assets.

Restricted net position – This component consists of constraints placed on net position use through external constraints imposed by creditors (such as through bond covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position – This component of net position consists of net position that do not meet the definition of "restricted" or "net investment in capital assets".

Douglasville-Douglas County Water and Sewer Authority Notes To Financial Statements

1. Summary of Significant Accounting Policies (continued)

I. Compensated Absences (PTO)

The Authority accrues its liability for earned but unpaid vacation and sick pay costs (Paid Time Off).

J. Unearned Income

Unearned income represents both interest received in advance under a debt service forward delivery agreement, and prepayments from the City and County for stormwater management services. These amounts are being amortized using the interest method over the life of the respective agreements.

K. Water and Sewer Tap Fees - Capital Contributions

Water and sewer tap fees are recorded as capital contributions when received and used in capital assets acquisition.

L. Developer Contributions - Lines & Other Assets

Water and sewer lines, stormwater infrastructure and lift stations are constructed by private developers and dedicated to the Authority, which is then responsible for their future maintenance. These assets are recorded as capital contributions when they pass inspection by the Authority. The estimated costs, which approximate fair value, are capitalized as improvements other than buildings.

M. Revenues and Expenses

Operating revenues and expenses consist of those revenues and expenses that result from the ongoing principal operations of the Authority. Operating revenues consist primarily of charges for services. Non-operating revenues and expenses consist of those revenues and expenses that are related to financing and investing types of activities and result from non-exchange transactions or ancillary activities.

When an expense is incurred for purposes for which there are both restricted and unrestricted net position available, it is the Authority's policy to apply those expenses to restricted net position to the extent such are available and then to unrestricted net position.

N. Statements of Cash Flows

For purposes of the Statements of Cash Flows, the Authority considers all currency, demand deposits, and money market accounts with banks or other financial institutions to be cash equivalents.

O. Management Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the period. Actual results could differ from these estimates.

2. Deposits and Investments

The Authority's available cash is invested in demand deposit accounts, money market treasury accounts, and the State of Georgia Local Government Investment Pool (Georgia Fund 1). The carrying amounts of the cash and investments at June 30 consist of the following:

	2016	2015
Demand deposit accounts	\$ 24,621,452	\$ 18,053,742
Local Government Investment Pool	950,281	976,894

Restricted - cash and equivalents	13,864,265	6,474,562
Restricted - investments	950,281	978,931
	\$ 25,571,733	\$ 19,030,636

Credit risk - State statutes authorize the Authority to invest in obligations of the State of Georgia or other states; obligations issued by the U.S. government; obligations fully insured or guaranteed by the U.S. government or by a government agency of the United States; obligations of any corporation of the U.S. government; prime banker's acceptances; the local government investment pool established by state law; repurchase agreements; and obligations of other political subdivisions of the State of Georgia.

The Authority has no formal credit risk policy. The current investment strategy of the Authority provides that safety of capital is the primary objective of all Authority investments and requires that all investments are managed to ensure preservation of and to limit exposure to principal losses due to credit, market and/or liquidity risks.

At June 30, 2016 and 2015, the Authority had the following investments listed at Fair Value:

Investment	2016	2015
Georgia Fund 1 LGIP	\$950,281	\$976,894
Maturities - in weighted average	42 days	56 days

Georgia Fund 1 – The investment in Georgia Fund 1 represents the Authority's portion of the pooled investment account. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal. The investment in Georgia Fund 1 is valued at fair value. The regulatory oversight agency for Georgia Fund 1 is the Office of The State Treasurer of the State of Georgia. As of June 30, 2016 and 2015, the Authority's investment in Georgia Fund 1 was rated AAAf by Standard & Poor's.

Interest rate risk – The Authority does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Custodial credit risk – **deposits**. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal or state government instruments) to be collateralized at 110% by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities. As of June 30, 2016 all of the Authority's bank balances were insured and collateralized as required.

3. Capital Assets

A summary of capital asset activity and changes in accumulated depreciation for the years ended June 30, 2016 and 2015 follows:

	Balance June 30, 2015	Additions	Retirements & Transfers	Balance June 30, 2016
Capital assets not being depreciated:

Net capital assets	\$ 404,559,489	\$ 13,223,0	82 \$	(21,806,450)	\$ 395,976,121

Total interest costs incurred during the year amounted to \$5,199,373 and \$6,152,416 in 2016 and 2015, respectively. From these amounts, \$64,739 (2016) and \$284,690 (2015) were capitalized as construction period interest.

Depreciation expense incurred during the year amounted to \$18,614,124 in 2016 and \$18,578,980 in 2015.

4. Long-Term Debt

On October 9, 2015, the Authority issued 2015 Series A & B Bonds totaling \$73,420,000 in an advance refunding of the 2007 Series Bonds. The interest rate on Series A Bonds is 3.10% with the final maturity due in 2030. The interest rate on Series B Bonds is 3.14% with a mandatory redemption on June 1, 2030. Annual debt service payments will decrease \$356,000 to \$490,000 for the next 15 years. The economic gain over the next 15 years for the refunding is \$71,785,000 at June 30, 2016.

On December 18, 2013, the Authority issued \$53,180,000 Water and Sewerage Revenue Bonds in a partial defeasance of \$48,360,000 of the 2005 Bonds principal outstanding balance. The 2013 Bonds were issued at a 2.8% interest rate with a maturity in 2030. The refunding reduced total debt service by \$6,852,736. The Series 2013 Bonds having a stated maturity of June 1, 2030 and may be redeemed beginning in June 2023 at the option of the Authority in whole or in part with not less than thirty (30) days notice nor more than 60 days notice at a redemption price equal to 100% of the principal amount to be redeemed, plus accrued interest to the redemption date. The outstanding principal balance on the 2013 Series Bonds was \$51,260,000 and \$52,490,000 at June 30, 2016 and 2015, respectively.

On November 17, 2009, the Authority issued \$26,720,000 Water and Sewerage Revenue Bonds in a defeasance of the 1998 Bonds principal outstanding balance of \$27,925,000. Interest rates on the 2009 Bonds range from 3% to 5% with a maturity in 2023. Total debt service was reduced by \$2,111,395 with the refunding. The Series 2009 Bonds having a stated maturity of June 1, 2023 and will be subject to scheduled mandatory redemption prior to maturity beginning June 1, 2011 to June 1, 2023 at a redemption price equal to 100% of the principal amount to be redeemed, plus accrued interest to the redemption date. The outstanding principal balance on the 2009 Series Bonds was \$22,110,000 and \$24,780,000 at June 30, 2016 and 2015, respectively.

On October 18, 2007, the Authority issued Water and Sewerage Revenue Bonds in the amount of \$76,755,000 with interest rates ranging from 4% to 5%. The Bonds were used to finance the cost of making renovations, additions, extensions and expansions to the system. The outstanding principal balance on the 2007 Series Bonds was \$0 and \$68,625,000 at June 30, 2016 and 2015, respectively. The amount defeased by the 2015 bond issue was placed in a trust account and will be paid out on June 1, 2017.

On November 30, 2005, the Authority issued Water and Sewerage Revenue Bonds in the amount of \$52,250,000 with interest rates ranging from 3.5% to 5.0%. The bonds were used to finance the cost of making renovations, additions, and expansions of the system. A defeasance of \$48,360,000 of this bond occurred with the issue of the 2013 Water and Sewerage Revenue Bond in December 2013 (see above). The remaining 2005 Bonds matured on June 1, 2015. The defeasance was placed in a trust account and was paid out on the December 2015 call date. At June 30, 2016 no principal was outstanding.

On June 15, 1993, the Authority issued Water and Sewerage Revenue Bonds in the amount of \$29,895,000 in a partial defeasance of the 1991 and 1988 bond issues. Interest rates on the 2003 Bonds range from 2.6% to 5.45%. The remaining proceeds were used to fund construction. The final payment of this bond was made in June 2015.

All bonds are secured by the net revenues of the Authority. Interest is payable semi-annually on June 1 and December 1. Principal is payable annually on June 1.

4. Long-Term Debt (continued)

Debt service over the remaining term of the bonds is summarized as follows:

Bond Year Ending	Principal Maturities and		Total Debt
June 30	Scheduled Mandatory	Interest	Service on
	Redemption Payments	Payments	the Bonds
2017	\$ 6,490,000	\$ 4,687,235	\$ 11,177,235
2018	6,695,000	4,477,589	11,172,589
2019	6,960,000	4,219,875	11,179,875
2020	7,220,000	3,951,419	11,171,419

Totals	145,155,000	\$ 41,695,341	\$ 186,850,341
Less: Portion due within one year	6,490,000		
Net Unamortized (premium) /dise	count (659,094)		
Long-term debt at June 30, 2016	\$ 139,324,094	-	

Bond indentures for the Authority's revenue bonds include provisions requiring the Authority to set up certain debt related accounts, the transfer of one-sixth interest and one-twelfth principal each month to a sinking fund and requirements relating to rate setting and maintaining certain coverage ratios. For purposes of calculating certain coverage ratios, the 2015 Bond Series B provides annual bond maturities through 2037; however, the Series B maintains a mandatory redemption date of June 1, 2030.

Changes in long-term debt are as follows:

5. Restricted Assets

Certain of the Authority's assets are restricted for specified purposes. Legal or contractual agreements restrict amounts for debt service, refunding of meter deposits and capital improvements. Board restrictions on reserved funds were changed during the year to include shortfalls in operations or debt service and were removed from the restricted classification. A breakdown of the specified purposes of the restricted assets is as follows:

	 2016	2015
Legal:		
Renewal and extension cash	\$ 11,615,508	\$ 4,264,499
Refundable meter deposits	2,248,757	2,210,063
Debt service sinking fund	950,281	978,931
	 14,814,546	7,453,493
Receivables	1,099,313	1,203,785
Totals	\$ 15,913,859	\$ 8,657,278

Amounts in the Debt Service Sinking Fund are restricted to the payment of current bond principal and interest requirements as they become due, as well as required fiscal charges. Sinking fund payments required by the Authority for bond year 2016 and 2015 total \$11,666,508 and \$11,667,045, respectively.

6. Deferred Outflows / Deferred Inflows of Resources

	 2016	2015
Deferred Outflows		
ERP pension plan (see note 9)	\$ 2,752,829	\$ 899,982
Bond refundings	6,300,870	4,473,744
Total deferred outflows	9,053,699	5,373,726
Deferred Inflows		
ERP pension plan	 464,622	1,424,241
Total deferred inflows	\$ 464,622	\$ 1,424,241

7. Other Long-Term Liabilities

Other long-term liabilities consisted of pension and other post employment benefits as follows:

	 2016	2015
Net Pension Liability - ERP (see note 9)	\$ 1,937,942	\$ -
Pension - Executive Director (see note 10)	1,525,969	1,709,823
Other Post Employment Benefits - Retired Executive		
Director & Former Deputy Director (see note 12)	451,825	523,971
Total	\$ 3,915,736	\$ 2,233,794

8. Net Investment in Capital Assets

Net investment in capital assets can be summarized by the year end balances as follows:

	2016	2015
Net capital assets	\$ 386,557,751 \$	395,976,121
Debt related to capital assets	(145,814,094)	(149,055,387)
Debt related deferred outflows	6,300,870	4,473,744
End of year	\$ 247,044,527 \$	251,394,478

9. Pension - Employees Retirement Plan (ERP)

General Information about the Pension Plan

Plan Description

The Douglasville-Douglas County Water & Sewer Authority Employees Retirement Plan (the "Plan" "ERP") is an agent multiple-employer public employee defined benefit retirement plan. The plan covers all employees of the Authority and is affiliated with the Georgia Municipal Employees Benefit System (the "System"), which acts as a common investment and administrative agent for municipalities in the State of Georgia. The benefit provisions and all other requirements are established by State law. The System issues a publicly available financial report that includes financial statements for the Plan. That report may be obtained by writing to Georgia Municipal Employees Benefit System (GMEBS), 201 Pryor Street SW, Atlanta, Georgia 30303.

The following brief description of the pension plan terms is provided for general information purposes only. Participants should refer to the plan document for more complete information. The original date of the plan was March 1, 1986. The plan was amended June 1, 1994, January 1, 1997, December 1, 1999, July 1, 2003 and January 1, 2009.

Benefits Provided

All employees hired in positions that meet or exceed the prescribed annual hourly standard are enrolled in the Authority's retirement plan. No employee contributions are allowed in the plan. Normal retirement age under the Plan is 65 with at least 5 years service and early retirement is at age 55 with 10 years of service. Employees are eligible for coverage after one year of continuous service, who work a scheduled 30 hour week (20 hours for employees hired before June 1, 1994). Maximum credit for years of service for employees hired after December 1, 1999 is 30 years. The plan was amended in January 1, 2009, and differences in benefits are:

Employees hired before January 1, 2009: Vesting after 5 years service, normal retirement benefits are calculated at 2% per year of service based on average of highest 36 consecutive months, with early retirement at 55, and under the rule of 80. Disability benefits apply without minimum service. Benefits contain a cost of living provision not to exceed 5% annually.

Employees hired on or after January 1, 2009: Vesting after 10 years service, normal retirement benefits are calculated at $1 \frac{1}{2} \%$ per year of service based on the average of highest 60 consecutive months. Rule of 80 early retirement benefits do not apply, disability benefits do not apply and there is no cost of living adjustment.

Employees Covered by Benefits

Membership of the Plan as of the valuation date of January 1, 2016 was:

65
77
169
311

Contributions

The Plan is subject to minimum funding standards of the Public Retirement Systems Standards Law (Georgia Code Section 47-20-10). The GMEBS Board of Trustees had adopted an independent actuarial funding policy that exceeds State law requirements, but is in accordance with required contributions as defined by generally accepted accounting principles. This policy requires a different funding level than the estimated minimum annual contribution to minimize fluctuations in annual contribution amounts and to accumulate sufficient funds to secure benefits under the plan. There are no assets legally reserved for purposes other than the payment of plan member benefits for the plan. For the year ended June 30, 2015, the average active employee contribution rate was 13.27% of covered payroll. For the year ended June 30, 2016, the average active employee contribution rate was 11.65%. The Authority's contributions to the plan totaled \$1,100,004 for the year ended June 30, 2016.

9. Pension - Employees Retirement Plan (ERP)(continued)

Net Pension Liability

The Authority's net pension liability was measured as of September 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The total pension liability in the September 30, 2015 actuarial valuation was determined using the following actuarial assumptions:

Inflation	3.25%
Investment Rate of Return	7.75%
Projected Salary Increases	3.25% plus service based on merit increases
Cost of living adjustments	3.25% for participants hired before $1/1/2009$; otherwise 0%.

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on a four-year review for the period January 1, 2010 to June 30, 2014.

The actuarial assumptions used in the January 1, 2016 valuation were based on results of an actuarial experience study for the period January 1, 2010 through June 30, 2014.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class as of September 30, 2015 are summarized in the following table:

	Target	Long-Term Expected Real	Long-Term Nominal Real
Asset Class	Allocation	Rate of Return	Rate of Return
Domestic equity	50%	5.95%	9.20%
International equity	15%	6.45%	9.70%
Fixed income	25%	1.55%	4.80%
Real estate	10%	3.75%	7.00%
Cash	0%		
Total	100%		

Discount Rate

The discount rate used to measure the total pension liability was 7.75 percent. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at the current contribution rate as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Authority, calculated using the discount rate of 7. 75 percent, as well as what the Authority's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent) than the current rate:

		Current Discount	
	1% Decrease	Rate	1% Increase
	6.75%	7.75%	8.75%
Authority's Net Pension Liability (Asset)	\$5,982,545	\$1,937,942	(\$1,424,851)

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued GMEBS financial report.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2016, the Authority recognized pension expense of \$790,134. At June 30, 2016, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources.

	Deferred Outflows of Resources		Dutflows of Deferred Inflo	
Differences between expected and actual experience	\$	966,495	\$	(25,394)
Changes of assumptions		-		(439,228)
Net difference between projected and actual earnings on pension plan investments		961,331		-
Employer contributions to pension plan after measurement date of the net pension liability		825,003		-
Total	\$	2,752,829	\$	(464,622)

9. Employees Retirement Plan (continued)

\$825,003 reported as deferred outflows of resources related to pensions resulting from employer contributions after the measurement date will be recognized as an addition to the net pension asset in the fiscal year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflow of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30:	 Outflows	Inflows
2017	\$ 517,041	\$ (232,311)
2018	517,041	(232,311)
2019	517,041	-
2020	376,703	-
2021	-	-
Thereafter	 -	-
Subtotals	\$ 1,927,826	\$ (464,622)
Employer contributions after the measurment date	 825,003	-
Totals	\$ 2,752,829	\$ (464,622)

Payables to the Pension Plan

At June 30, 2016, the Authority did not have any payables to the pension plan required for the year ended June 30, 2016.

10. Pension - Former Executive Director - Plan II

General Information about the Pension Plan

Plan Description

The Douglasville-Douglas County Water & Sewer Authority - Executive Director Plan is a single employer – single employee defined benefit plan (the "Plan II") that offers the Former Executive Director additional supplemental pension retirement benefits. The plan is a defined benefits retirement plan based on number of years service, cost of living adjustment, and is reduced by any benefits paid by the main retirement plan. The plan does not issue a stand-alone report. The plan is not administered through a trust and therefore follows GASB Statement No. 27.

The following is a brief description of the plan for general information purposes. The Authority entered into an Employment Agreement with the Executive Director on October 1, 1999 providing supplemental pension retirement benefits. The Executive Director is not required to contribute to the plan. On February 1, 2007 the Executive Director officially retired. There are no provisions for change other than by mutual agreement by both parties.

Benefits Provided

This is a single employee plan with 4% of employee's average annual compensation multiplied by the number of years of service with the average annual compensation based on three highest years worked before retirement less any payments received from GMEBS (see pension information above). The employee retired under the rule of 80 at 55 with 25 years of service. Benefits are to be adjusted annually with prior year's CPI inflation rate.

Employees Covered by Benefits

Membership of the Plan as of the valuation date of January 1, 2016 was:

Members of the Plan	Participants
Retirees and beneficiaries receiving benefits	1
Terminated plan members entitled to, but not yet receiving benefits	0
Active plan members	0
Total Membership	1

10. Pension - Former Executive Director - Plan II (continued)

Funding Policy

During Fiscal Year 2007, the Authority purchased lump sum single premium life only annuities in the amount of \$1,651,197 for this pension retirement obligation to the Former Executive Director. The cost of living adjustments have not been funded. In January of each year a payment is made to the Executive Director to pay for any pension liability due to cost of living provisions not covered by the annuities or GMEBS pension payments. The liability associated with this plan is listed as other long-term liabilities in the statements of net position.

The annual pension cost and net pension obligation for the current year were as follows:

Annual required contribution	\$ (146,663)
Interest from net pension obligations	68,393
Adjustment to annual required contribution	(68,393)
Annual pension cost	(146,663)
Contributions made	(37,191)
Increase (decrease) in net pension obligation	(183,854)
Net pension obligation, beginning of year	1,709,823
Net pension obligation, end of year	\$ 1,525,969 Note 7

Fiscal Year	Annual Pension Cost	Actual Contribution	Percentage of APC Contributed	Net Pension Obligation End of Year
2014	\$0	\$26,560	100%	\$1,552,785
2015	\$184,830	\$27,792	15%	\$1,709,823
2016	(\$146,663)	\$37,191	-25%	\$1,525,969

As of the most recent valuation date, January 1, 2016, the funded status of the plan was as follows:

Actuarial Valuation Date	Actuarial Value of Assets	Actuarial Accrued Liability (AAL)	Unfunded Actuarial Accrued Liability (AAL)	Funded Ratio	Covered Payroll	UAAL as a Percentage of Covered Payroll
1/1/2016	\$1,601,210	\$3,164,370	\$1,563,160	50.60%	N/A	N/A

The required schedule of funding progress immediately following the notes to the financial statement presents multi-year trend information about whether the actuarial value of plan net assets, actuarial accrued liabilities, and total unfunded actuarial liabilities are increasing or decreasing over time relative to the actuarial accrued liability.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future and are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective and calculations are based on the substantive plan in effect as of January 1, 2016.

Valuation Date	January 1, 2016
Actuarial Cost Method	Projected unit credit
Amortization Method	Level dollar for remaining unfunded liability
Remaining Amortization Period	N/A
Asset Valuation Method	Fair market value
Actuarial Assumptions:	
Investment Rate of Return	N/A
Projected salary increase	N/A
Cost of living adjustment (inflation)	4%
Mortality rates	Based on the 2014 RP-2014 Combined Mortality Table.

11. Deferred Compensation

Deferred Compensation Plan

The Authority offers its employees a voluntary deferred compensation plan created in accordance with Internal Revenue Code Section 457. The Plan, available to all Authority employees, permits them to defer a portion of their salary until future years. Participation in the plan is optional. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. As required by Federal regulations, these plan assets are held in trust for the exclusive benefit of participants and their beneficiaries.

The Authority has no fiduciary relationship with the trust that is administered by a third party. In accordance with the provisions of Statement of Governmental Accounting Standards No. 32, *Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*, the plan assets are not reported in the Authority's financial statements.

12. Other Post Employment Benefits

Plan Description

The Authority does not provide post-retirement benefits to its employees with the exception of hospitalization and medical coverage of a former Executive Director who retired effective February 1, 2007 and hospitalization insurance coverage for a Deputy Director who retired effective June 30, 2014. Douglasville-Douglas County Water & Sewer Authority's - Executive – Employment Agreement Plan is a single-employer defined benefit plan. The plan was created on October 1, 1999, when the Authority entered into an employment agreement with the Executive Director providing supplemental retirement benefits. After retirement on February 1, 2007, services of an actuary were obtained and the estimated costs associated with this benefit amortized over a 5 year period. The actuary determined actuarial accrued liability as of January 1, 2016 was \$470,142. The calculations are based on the OPEB benefits provided under terms of the substantive plan in effect at the time of each valuation and terms of sharing cost. The Authority entered into a retirement agreement with the Deputy Director on May 28, 2013 whereby agreeing to reimburse \$1,046.05 per month for hospitalization insurance upon retirement on June 30, 2014 until the age of 65 is reached or other employment and insurance is obtained. The plan does not issue a stand-alone report.

Benefits

The Authority agreed to pay all health insurance and reimbursement for medical expenses for the former Executive Director and any dependents for the rest of his life after retirement. The benefits were created by the 1999 employment agreement between Peter Frost and the Board of Directors. There are no provisions for changes other than by mutual agreement from both parties. The Authority also agreed to pay \$1,046.05 monthly for hospitalization insurance coverage for Michael Patton upon retirement on June 30, 2014 until he reaches age 65. No changes or amendments are allowed except by mutual agreement from both parties.

Eligibility

Only two employees are eligible to receive benefits under this plan - the retired Executive Director and Deputy Director.

Membership

Membership of the Plan as of January 1, 2016 was:

Members of the Plan	<u>Participants</u>
Retirees and beneficiaries receiving benefits	2
Terminated plan members entitled to, but not yet receiving benefits	0
Active plan members	0
Total Membership	2

12. Other Post Employment Benefits (continued)

Contributions – Funding

The Authority funds this benefit on a pay-as-you-go basis. The closed plan actuarial accrued liability was computed as of January 1, 2016 and any adjustments were fully recognized as of that date. The net OPEB obligation appears on the statements of net position as other long term liabilities. Benefits paid out for the past fiscal years totaled \$34,610 (2016) and \$33,508 (2015).

The annual OPEB cost and net OPEB obligation for the current year is as follows:

Annual required contribution	\$ (37,536)	
Interest from net OPEB obligations	20,959	
Adjustment to annual required contribution	(20,959)	
Annual OPEB cost	 (37,536)	
Contributions made	(34,610)	
Decrease in net OPEB obligation	 (72,146)	
Net OPEB obligation, beginning of year	523,971	
Net OPEB obligation, end of year	\$ 451,825	Note 7

Fiscal Year	Annual OPEB Cost	Actual Contribution	Percentage of Annual OPEB Cost Contributed	Net Obligation End of Year
2014	\$100,420	\$24,458	24%	\$590,657
2015	(\$33,178)	\$33,508	-101%	\$523,971
2016	(\$37,536)	\$34,610	-92%	\$451,825

As of the most recent valuation date, January 1, 2016, the funded status of the plan was as follows:

Actuarial Valuation Date	Actuarial Value of Assets	Actuarial Accrued Liability (AAL)	Unfunded Actuarial Accrued Liability (AAL)	Funded Ratio	Covered Payroll	UAAL as a Percentage of Covered Payroll
1/1/2016	\$0	\$470,142	\$470,142	0%	N/A	N/A

The required schedule of funding progress immediately following the notes to the financial statements presents multiyear trend information about whether the actuarial value of plan net assets is increasing or decreasing over time relative to the actuarial accrued liability. Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future and are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective and calculations are based on the substantive plan in effect as of January 1, 2016.

Valuation Date	January 1, 2016
Actuarial Cost Method	Projected unit credit
Amortization Method	Level dollar for remaining unfunded liability
Amortization Period	N/A
Actuarial Assumptions:	
Investment rate of return	3.00%
Projected salary increases	N/A
Medical cost adjustment factor pre-Medicare	1.10%
Cost Adjustment at age 65	0.46%
Medical benefits value	3% interest
Medical cost trend (inflation rate)	7%
Life Expectancy	Based on RP-2014 table

13. Commitments and Contingencies

Commitments

In the normal course of business, the Authority enters into agreements with contractors for the construction and expansion of the system. As of June 30, 2016 and 2015, outstanding construction commitments totaled \$1,957,100 and \$2,218,200, respectively.

Litigation

As of June 30, 2016 and 2015 there were no pending or threatened litigation, claims or assessments against the Authority that would have a material impact on the financial position of the Authority in legal counsel's opinion.

14. Risk Management

The Authority is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Authority continues to carry commercial insurance for most risk of loss, including workers' compensation and employee health and accidental insurance. There have been no significant reductions in insurance coverage and no settlements exceeding insurance coverage for the past three years.

Schedule of Changes in the Net Pension Liability and Related Ratios

Notes to Schedule:

2015 is the first year that data has been measured in accordance with GASB Statement 68.

Douglasville-Douglas County Water and Sewer Authority Required Supplementary Information

Schedule of Pension Contributions

	FY2016	FY2015
Actuarially determined contribution	\$ 775,075	\$ 928,608
Contributions in relation to the actuarially determined contribution	 1,100,004	 1,199,977
Contribution deficiency (excess)	\$ (324,929)	\$ (271,369)
Covered-employee payroll	\$ 9,446,108	\$ 9,043,664
Contributions as a percentage of covered-employee payroll	11.65%	13.27%

Notes To Schedule of Contributions:

The information presented was determined as of part of the actuarial valuations at the dates indicated. Additional information as of the latest valuation follows:

Valuation Date	January 1, 2016
Actuarial cost method	Projected unit credit
Amortization method	Closed level dollar for remaining unfunded liability
Remaining amortization period	N/A
Asset valuation method	Sum of actuarial value at beginning of year and the cash flow during the year plus the assumed investment return, adjusted by 10% of the amount that the value exceeds or is less than the market value at the end of the year. The actuarial value is adjusted, if necessary, to be within 20% of market value.
Actuarial assumptions:	
Net investment rate of return	7.75%
Projected salary increases	3.25% plus service based merit increases
Cost of Living Adjustments	3.25% for participants hired prior to $1/1/2009$; 0% otherwise.
Retirement age	Normal retirement at age 65. Assumptions 60% at ages 65 to 69 and 100% at age 70.
	Where normal retirement is available before 65, assumptions are 10% at ages 55 to 59, 20% at ages 60, 25% at age 61, 35% at age 62, 40% at age 63, 45% at age 64, 50% at age 65 to 69, and 100% at age 70.
Mortality	The actuarial valuation assumed life expectancies were adjusted as a results of adopting the RP-2000 Healthy Mortality Table adjusted for actuarial experience study for the period January 1, 2010 through June 30, 2014.
Other information:	
Benefit changes	
	Effective January 1, 2015, the Plan was amended to provide for immediate participation for employees. This change has no impact on service credited under the Plan and has no impact on benefits.
	2015 is the first year that data has been measured in accordance with GASB 68.

ADDITIONAL SCHEDULES OF INDIVIDUAL ACCOUNTS

SCHEDULE 1

OPERATING ACCOUNT

All revenues received from the operations of the System are collected by the Authority and deposited into the Revenue "Operating" Accounts. Disbursements made from the Operating Accounts are payments for, and in order as follows:

- *a) Operating, maintaining and repairing the system in accordance with sound business practices.
- b) Debt Service and/or Debt Service Reserve
- c) Renewal and Extension Funds

*The Authority's Board of Directors has set aside moneys in the Operating accounts, (via resolution), which have been reserved for potential catastrophic or disaster emergencies or shortfalls in operations and debt service.

SCHEDULE 5

CONSTRUCTION ACCOUNT

A Resolution established the Douglasville-Douglas County Water and Sewer Authority Construction Fund (the "Construction Fund"). This fund consist of proceeds of bonds and notes obtained for capital purposes. Withdrawals of moneys from the Construction Fund may be made for the purpose of paying the cost of acquiring, constructing, and equipping the project, including reimbursing the Authority for advances from its other funds. All moneys in, and all securities held for the Construction Fund will be subject to a lien in favor of the holders of the Bonds. All moneys remaining in the Construction Fund after the completion of the acquisition, construction, and equipping of the Project shall be transferred into the Debt Service Reserve Account. Should such transfer cause the balance in the Debt Service Reserve Account to exceed the Debt Service Reserve requirement, then any such excess funds shall be retained in the Sinking Fund but shall be applied to purposes of the Sinking Fund other than the creation and maintenance of the Debt Service Reserve Account.

SCHEDULE 6

RENEWAL AND EXTENSION ACCOUNT

A Renewal and Extension account is maintained in order to assure that funds are available for plant renewal and replacement. When the amount in the account is:

- I. Greater than \$100,000 payments are restricted to the following uses:
 - a) Paying bond principal and interest falling due at any time when money is not available in the Debt Service Account.
 - b) An emergency having a major effect upon the water and sewerage system, caused by an extraordinary occurrence, and provided the Revenue Fund has insufficient money to meet the emergency.
 - c) Making replacements, additions, extensions, and improvements deemed reasonable and necessary and in the best interest of the System.
- II. Less than \$100,000 payments are restricted to the following uses:
 - a) Paying bond principal and interest falling due at any time when money is not available in the Debt Service Account.
 - b) An emergency having a major effect upon the water and sewerage system, caused by an extraordinary occurrence, and provided the Revenue Fund has insufficient money to meet the emergency.

SCHEDULE 7

DEBT SERVICE ACCOUNTS

The various bond resolutions require the creation of accounts designated as Water and Sewerage System Sinking Funds, for the purpose of receiving and disbursing funds for principal and interest on the bonds and for maintaining designated reserves.

The resolutions require monthly transfers into these accounts which are sufficient to pay the principal of and interest on the bonds as each mature in each current year.

Disbursements made from the Sinking Fund account are restricted to payment for:

- a) Interest
- b) Principal at maturity
- c) Redemption prior to maturity
- d) Paying agent fees

Funds may be invested in securities which are direct and general obligations of the United States or are guaranteed by the United States as to both principal and interest and which are 100% insured or collateralized by United States direct and general obligations.

Maximum annual principal payments for 2015 Series B were determined using bond face maturies as allowed by bond covenants. This page left blank intentionally

STATISTICAL

STATISTICAL SECTION

This part of the Douglasville-Douglas County Water and Sewer Authority's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Authority's overall financial health.

CONTENTS	Table
Financial Trends These schedules contain trend information to help the reader understand how the Authority's financial performance has changed over time.	1 - 2
Revenue Capacity These schedules contain trend information to help the reader assess the Authority's most significant local revenue source.	3 - 5
Debt Service and Debt Capacity These schedules present information to help the reader assess the affordability of the Authority's current levels of outstanding debt and the Authority's ability to issue additional debt in the future.	6 - 9
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the Authority's financial activities take place.	10 - 11
Operating Information	12 - 15

These schedules contain service and infrastructure data to help the reader understand how the information in the Authority's financial report relates to the services the Authority provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Water, Sewer and Stormwater Rates Last Ten Fiscal Years

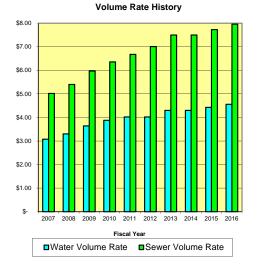

TABLE 5

Notes:

⁽¹⁾ In 2008 the Authority implemented a 3-tier water rate structure with Tier I (0-6,000 gallons), Tier II (6001-9,000 gallons), and Tier III (9,001 gallons & up)billing rates on residential customers. In 2014 the tiers were adjusted with Tier I (0-5,000), Tier II (5,001-8,000 gallons) and tier III (8,001 & up) rates as in the table below. Also in 2014 sewer rates were adopted with a 2-tier system with Tier I (0-5,000 gallons water consumption) and Tier II (5,001 & up) rates. The tier rates since inception in 2008 are as follows:

	W		SEV	VER				
Tier I		Tier II		Tier III		Tier I		Tier II + III
\$ 3.30	\$	4.13	\$	6.60				
\$ 3.64	\$	4.56	\$	7.29

Notes:

MAD - Maximum Annual Debt Service (largest debt service payment during life of bond issue; uses face maturity amounts for 2015 Series B, excluding mandatory redemption date as allowed by bond covenants).

*Debt limit is calculated based upon bond covenants requiring a ratio of 1.10 x maximum annual debt service.

**New Debt limit (2013 and later) is calculated based upon bond covenants requiring a ratio of 1.20 x maximum annual debt service.

MAD Debt applicable to Limit as Percent of Limit

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors Douglasville-Douglas County Water and Sewer Authority Douglasville, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Douglasville-Douglas County Water and Sewer Authority (the "Authority"), as of and for the years ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated November 8, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Douglasville-Douglas County Water and Sewer Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Douglasville-Douglas County Water and Sewer Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of Douglasville-Douglas County Water and Sewer Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Douglasville-Douglas County Water and Sewer Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
